

Intermodal from/to Spain: semitrailers admitted

Hupac launches P386 semitrailer transport from Belgium to Spain

Hupac Intermodal is happy to announce the possibility to ship semitrailers on the Spanish network up to Barcelona – a milestone for intermodal transport that has been achieved after a successful test period together with the Spanish Railways RENFE and the French SNCF.

As from February 2019, semitrailers with P386 codification can be carried on special pocket wagons. An extra strong XL tarpaulin is required.

The shuttle Antwerp ⇄ Barcelona offers daily departures with attractive A-C transit times. The train runs on the UIC line up to Barcelona Morrot without the need to change railcars for the Spanish network.

Main features

Start-up	20.2.2019
Frequency	5 departures per week / direction
Profile	C45 C364 P386
Bookings	via Hupac WOLF web-booking via EDI-system Ediges
